Outskirts Press, United States, 2011. Paperback. Book Condition: New. 213 x 137 mm. Language: English . Brand New Book ***** Print on Demand *****.anyone can curse the darkness. i m holding up this candle i call the Lap and praying God will light it. you see, the power grid just went down. some crazy hostetler guy warned us a couple years ago that the chinese were about to hack into our computers and do this to us, but none of us believed him. after all, the government said that could never happen to us.all i remember is that when the lights went out a couple minutes ago somehow this candle dropped into my left hand. what are the odds of that?! but how do i light my candle? i need some kind of flame here! well, since God just dropped this candle into my hand He obviously intends to also send the Flame to light it. did you hear that? it is rapidly sweeping westward having already swallowed up major sections of the eastern and central states. will people be too busy for God now? this is the God of the universe we re talking about here. (look! i haven t seen the stars this bright since i went star-gazing in wisconsin with joey and my lovely jewish christian friend. that blurry blob there must be the galaxy andromeda, some 12,000,000,000,000,000 miles away.and billions of stars are even much further away from us than that.)what makes you think any of us have anything to offer our Creator, the One who flung all those stars into space?as it turns out, we do have something to offer Him--our butts. the first thing He wants us to do is to let Him set our butts down on His Lap.and to keep them there.in...
