Prentice Hall International, 2003. Taschenbuch. Book Condition: Neu. Gebraucht - Wie neu Unbenutzt. Schnelle Lieferung, Kartonverpackung. Abzugsfähige Rechnung. Bei Mehrfachbestellung werden die Versandkosten anteilig erstattet. - Most Oracle DBAs spend the majority of their time each day doing pretty much the same things they do every other day, which is great, since they don't have any problem remembering the syntax and commands they want to use. But for the rest of their time, they're doing something they may only do once every few months -- and that's the time they need help. Not from a huge instructional manual, or awkward online documentation -- they have plenty of both and will use them when they need to. What DBA's really need is a simple, small, single volume quick reference that will remind them of the syntax and options of a command they rarely use, or give them a quick reminder of the available views and tables that make up a DBAs life. 560 pp. Deutsch.
