

Research and Development in Radio and Electronics, 1915-1974 (Classic Reprint)

Filesize: 1.46 MB

Reviews

Good e-book and useful one. It typically does not expense an excessive amount of. I am just delighted to tell you that this is basically the finest book we have read during my very own existence and could be he best ebook for actually.

(Audra Hodkiewicz)

RESEARCH AND DEVELOPMENT IN RADIO AND ELECTRONICS, 1915-1974 (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Research and Development in Radio and Electronics, 1915-1974 This interview with Mr. Harold Buttner is one of several dealing with the development of electrical engineering and electronics within the larger series of oral histories produced by the History of Science and Technology Program of The Bancroft Library. Besides these interviews, the Program assembles other primary source materials, including the papers and personal memorabilia of scientists and engineers, and the papers of certain organizations with which they were associated. The information in the papers and interviews helps to demonstrate not only the development of science and technology in the western United States, but in the nation as a whole. The project was made possible initially by the generosity of Messrs. William R. Hewlett and David Packard. Mrs. Calvin K. Townsend established the Doreen and Calvin K. Townsend Fund to provide ongoing support of the Program. The University Endowment Fund, National Science Foundation, and National Endowment for the Humanities have assisted diverse aspects of the Program with a series of grants. Further aid has come from the Marco Francis Hellman Fund, established to document science and technology and their relations to business in California. Other donors have included the Woodheath Foundation, the California Alumni Foundation and the Watkins-Johnson Company. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
