EXERCISES IN CURRENT ECONOMICS (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Exercises in Current Economics This book of exercises has been prepared to accompany the author's Current Economic Problems. As complementary expressions of the same conception of economics and the same method of teaching, unity and completeness are to be found only in the two volumes together. The Exercises follows the Problems, division by division, and section by section. In this volume each of the sections falls into four parts. The first gives a short statement introductory to the topic announced. These statements supplement the introductions to the divisions in the Problems, and are intended to give to the divisions the unity which the introductions to the divisions attempt to give to the treatment as a whole. The second gives, by number, a list of supplementary readings in the Problems. These are intended to show something of the many cross-currents in economic life and to indicate the intimate connection between seemingly independent problems. Since the sections bear the same titles as those in the Problems, it has seemed superfluous to enumerate the required readings. The third gives a list of questions based directly upon the readings. An attempt has been made to word them in such a way that they do not call for mere reproduction; that in answering them the student is forced to give something of his own. The fourth presents a series of problems based indirectly upon the readings. They are intended to test the student's acquisition of something more than the mere language of economics, his assimilation of readings presenting material from divergent viewpoints, and his ability to orient his thought in the face of conflicting opinions and testimony. These...
